

# The 2nd Christie Metastatic Spinal Cord Compression Study Day

Thursday 27th October 2011

Auditorium, Education Centre, The Christie, Manchester, M20 4BX

## Objectives

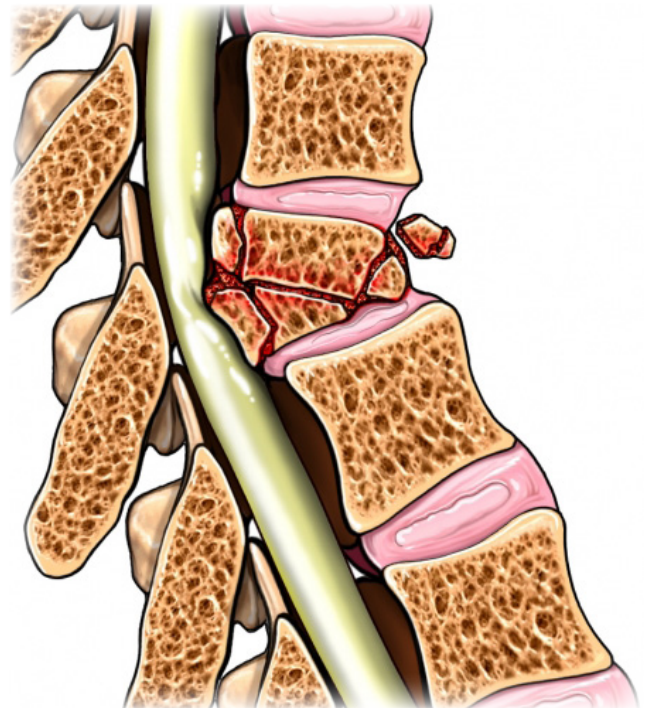

- To raise awareness on how to manage patients with suspected or established Metastatic Spinal Cord Compression from diagnosis, investigations, treatment and rehabilitation.
- To gain an understanding of the importance of recognising the early symptoms of MSCC
- To give an overview of the management of patients with MSCC, i.e. investigations and treatment.
- To address the development of MSCC coordinator posts, as recommended in the NICE guidelines, and explore examples of good practice.
- To give an overview of the rehabilitation of patients with MSCC

## Themes

- Overview of the management of MSCC
- National and local MSCC pathways
- MSCC coordinator role
- Early diagnosis and investigation
- Rehabilitation

## Topics Include

- How to develop a spinal cord coordinator service
- Metastatic spinal cord compression from a national perspective
- Metastatic spinal cord compression from a patient perspective
- Common barriers to early diagnosis and treatment and how to overcome them
